## 1 Overview

This deliverable describes the project web portal which is located at <https://gourmet-project.eu/>. This simple website is for communicating project information, providing project output, and updating people on our progress via a blog. It has a modern look and feel and will be updated with more information as the project progresses.

We also have an internal and access restricted portal for project collaboration located here <https://www.wiki.ed.ac.uk/display/GOUM>. This is hosted by the University of Edinburgh and it runs a Confluency wiki.
